

1

## travel by public transport

Barcelona is a city very well served by public transport, they go everywhere in the city and outside and some are electric

5

## use reusable bottles

the use of reusable bottles considerably reduces the consumption of single-use plastic

2

## sorting

Barcelona is a city that does selective sorting, in homes but also in street trash.

## take care of green spaces

Barcelona is a city rich in parks and green spaces, they have a history of life, let's protect them

4

## eat local

eating local helps promote the short circuit of food, therefore less pollution
